wis Burdetailes						
1. What are	single valence electr	ons called?				
2. What are	paired single valence	e electrons called?				
3. Draw and	Draw and Lewis diagram for chlorine and label a lone pair and a bonding electron.					
4. Draw the	Lewis formula for the	he following element	nts.			
carbon	sodium	argon	magnesium	sulfur		
5. For the fo		nbinations show usi	ng Lewis formulas th	ne forming of the resu		
a. sodium and	l phosphorous		b. berylliu	m and bromine		

SiF_4	PH_3	N_2H_4
CNSH	NSCI	H_2O_2

6. Draw an Lewis formula and structural formula for the following compounds
